1. Aims

Our SEN policy and information report aims to:

- Set out how our school will support and make provision for pupils with special educational needs (SEN)
- Explain the roles and responsibilities of everyone involved in providing for pupils with SEN

St Benedict's Junior School is an inclusive, warm and welcoming school. We are a two form entry Junior school with 190 children on roll. We aim to meet the wide range of needs of each and every learner at our school. We combine quality first teaching with a range of provision, working with other professionals and keeping families and children at the core of what we do. Our expectations for all children are high, and we extend these high expectations to all our learners with SEND – aiming for the best possible progress for each child. Children's individual strengths and achievements are celebrated and we work hard to overcome barriers to learning.

2. Legislation and guidance

This policy and information report is based on the statutory [Special Educational Needs and Disability \(SEND\) Code of Practice](#) and the following legislation:

- [Part 3 of the Children and Families Act 2014](#), which sets out schools' responsibilities for pupils with SEN and disabilities
- [The Special Educational Needs and Disability Regulations 2014](#), which set out schools' responsibilities for education, health and care (EHC) plans, SEN co-ordinators (SENCOs) and the SEN information report

This policy also complies with our funding agreement and articles of association.

3. Definitions

A pupil has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for them.

They have a learning difficulty or disability if they have:

- A significantly greater difficulty in learning than the majority of others of the same age, or
- A disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools

Special educational provision is educational or training provision that is additional to, or different from, that made generally for other children or young people of the same age by mainstream schools.

4. Roles and responsibilities

4.1 The SENCO

The SENCO is Ms Amelia Kirby

She will:

- Work with the headteacher (Piers Ranger) and SEN governor (Sue Wooton) to determine the strategic development of the SEN policy and provision in the school
- Have day-to-day responsibility for the operation of this SEN policy and the co-ordination of specific provision made to support individual pupils with SEN, including those who have EHC plans
- Provide professional guidance to colleagues and work with staff, parents, and other agencies to ensure that pupils with SEN receive appropriate support and high quality teaching
- Advise on the graduated approach to providing SEN support
- Advise on the deployment of the school's delegated budget and other resources to meet pupils' needs effectively
- Be the point of contact for external agencies, especially the local authority and its support services
- Liaise with potential next providers of education to ensure pupils and their parents are informed about options and a smooth transition is planned
- Work with the headteacher and governing board to ensure that the school meets its responsibilities under the Equality Act 2010 with regard to reasonable adjustments and access arrangements
- Ensure the school keeps the records of all pupils with SEN up to date

4.2 The SEN governor

The SEN governor is Mrs Sue Wootton.

She will:

- Help to raise awareness of SEN issues at governing board meetings
- Monitor the quality and effectiveness of SEN and disability provision within the school and update the governing board on this
- Work with the headteacher and SENCO to determine the strategic development of the SEN policy and provision in the school

4.3 The headteacher

The head teacher is Mr Piers Ranger.

He will:

- Work with the SENCO and SEN governor to determine the strategic development of the SEN policy and provision in the school
- Have overall responsibility for the provision and progress of learners with SEN and/or a disability

4.4 Class teachers

Each class teacher is responsible for:

- The progress and development of every pupil in their class
- Working closely with any teaching assistants or specialist staff to plan and assess the impact of support and interventions and how they can be linked to classroom teaching
- Working with the SENCO to review each pupil's progress and development and decide on any changes to provision
- Ensuring they follow this SEN policy

5. SEN information report

5.1 The kinds of SEN that are provided for

There are four types of Special Educational Needs and Disabilities (SEND), decided by the Department for Education. These are:

- Communication and interaction
- Cognition and learning
- Social, mental and emotional health
- Sensory or physical

If your child has SEND then their needs will fit into one or more of these categories. A school's provision for SEND is 'additional to and different from' that already provided within the school's differentiated curriculum.

5.2 Identifying pupils with SEN and assessing their needs

As a junior school, many of our children with additional needs will have already been identified. We also conduct entry-level assessments for our children arriving in Year 3. Class teachers will make regular assessments of progress for all pupils and identify those whose progress:

- Is significantly slower than that of their peers starting from the same baseline
- Fails to match or better the child's previous rate of progress
- Fails to close the attainment gap between the child and their peers
- Widens the attainment gap

This may include progress in areas other than attainment, for example, social needs.

Slow progress and low attainment will not automatically mean a pupil is recorded as having SEN.

If your child is identified by the teacher and SENDCo as requiring special educational provision, you will be notified. Your child's class teacher will then draw up a Pupil Passport (an example can be seen below). This will use information from you, your child and the teachers to decide on desired outcomes for your child. We will also include what support is needed. Pupil passports are reviewed regularly and shared with parents at parent's evening, or on request. The aim of additional provision is to support your child to make the best possible progress and to achieve their personalised targets. Your child may be removed from the SEND register if they no longer require support that is 'additional to and different from' that provided to their peers.

5.3 Consulting and involving pupils and parents

We will have an early discussion with the pupil and their parents when identifying whether they need special educational provision. These conversations will make sure that:

- Everyone develops a good understanding of the pupil's areas of strength and difficulty
- We take into account the parents' concerns
- Everyone understands the agreed outcomes sought for the child
- Everyone is clear on what the next steps are

Notes of these early discussions will be added to the pupil's record and given to their parents.

We will formally notify parents when it is decided that a pupil will receive SEN support.

When we have parent's evenings, children on the SEN register will be offered longer slots in order to review set their SEN targets and discuss provision and support.

5.4 Assessing and reviewing pupils' progress towards outcomes

We will follow the graduated approach and the four-part cycle of **assess, plan, do, review**. *SEE APPENDIX*

The class or subject teacher will work with the SENCO to carry out a clear analysis of the pupil's needs. This will draw on:

- The teacher's assessment and experience of the pupil
- Their previous progress and attainment and behaviour

- Other teachers' assessments, where relevant
- The individual's development in comparison to their peers and national data
- The views and experience of parents
- The pupil's own views
- Advice from external support services, if relevant

The assessment will be reviewed regularly.

All teachers and support staff who work with the pupil will be made aware of their needs, the outcomes sought, the support provided, and any teaching strategies or approaches that are required. We will regularly review the effectiveness of the support and interventions and their impact on the pupil's progress.

5.5 Supporting pupils moving between phases and preparing for adulthood

Most of our children move onto secondary school at St Dunstan's. A smaller amount of our pupils transfer to Crispin or Wells Blue school. Transition is well established with all our main secondary schools and we have strong support structures in place to ensure all children's needs are well understood by their new setting.

In Summer term of Year 6, enhanced transition groups will be identified for requiring additional transfer support. This may involve, for example, taking weekly cooking classes at secondary school over a number of weeks, or 1:1 time spent in the new school understanding its layout and meeting staff. We have a strong relationship with pastoral teams at the secondary schools. Your child's information and SEN file will be transferred once they are on roll at their new secondary school.

5.6 Our approach to teaching pupils with SEN

Teachers are responsible and accountable for the progress and development of all the pupils in their class.

High quality teaching is our first step in responding to pupils who have SEN. This is universal provision for all of our learners (as referenced in the Core Standards and as per our graduated response pyramid – *SEE APPENDIX*). Children have access to a broad and balanced, well differentiated curriculum. Children and young people requiring provision that is additional to and different from their peers, will receive a variety of interventions or additional support tailored to their individual need. A copy of our provision map (for each different area of SEN) can be found at the end of this report.

We use the graduated provision tool as laid out by Somerset <https://beta.somerset.gov.uk/the-graduated-response-tool/> to ensure good practice and early identification and support of needs.

Support and intervention at our school includes (but is not limited to):

Class teacher input, via excellent targeted classroom teaching (Quality First Teaching)

For your child this would mean –

- That the teacher will make changes to their teaching to suit the needs of all learners (e.g. including more practical learning opportunities) so that your child is fully involved in learning in class.
- That the teacher has high expectations of all learners in their care.
- That all teaching is built on what your child already knows, can do and understands.

- That specific strategies (that may have been suggested by the SENCO) are in place to support your child to learn e.g. fidget toys, chew buddies.

Your child's teacher will assess your child's progress and will make careful decisions based on whether they feel they need additional support to help them close gaps in their understanding/learning in order to make the best possible progress.

Specific Group Work.

If your child's needs relate to more specific areas of learning then your child may be included in an intervention group. This type of intervention may be run in the classroom or a group room and be led by the class teacher or a teaching assistant (TA). Types of group work include:

- Maths interventions (including Y6 booster groups, personalised interventions)
- Reading interventions (daily readers, Individualised Literacy Interventions, Read Write inc, comprehension groups)
- Handwriting or fine motor skills interventions
- Gross motor skills groups
- Nurture groups (support with emotions and feelings)
- Art therapy groups (led by our art therapist student)
- 1:1 art therapy (led by our art therapist student)
- 1:1 learning mentor support

Some children may be identified by the SENCO as needing some extra specialist support in school from a professional outside the school. This could include the Educational Psychology Service, the Virtual School or the Integrated Therapy Team. In order to access this support, the SENCO would meet with you to complete an EHA (Early Help Assessment) which is needed to refer your child to a specialist professional. This form requires your permission to be able to make a referral and takes your view as parent, as well as schools, into account. By doing so, this will help both the school and you to understand your child's particular needs better and be able to support them more effectively in school. The specialist professional will work with the school and your child to understand their needs and make recommendations as to the ways your child is given support.

Specified Individual Support

This type of support is available for children whose learning needs are severe, complex and lifelong. This is usually provided by a Statement of Special Educational Needs or an Educational, Health and Care Plan (EHCP). This means your child will have been identified by professionals as needing a particularly high level of individual or small-group teaching. This type of support is available for children with specific barriers to learning that cannot be overcome through Quality First Teaching and intervention groups.

5.7 Adaptations to the curriculum and learning environment

We are committed to inclusion and ensuring the needs of all learners are met at St Benedict's. Please see the website for a link to our accessibility plan.

We make the following adaptations to ensure all pupils' needs are met:

- Differentiating our curriculum to ensure all pupils are able to access it, for example, by grouping, 1:1 work, teaching style, content of the lesson, etc.

- Adapting our resources and staffing as required
- Using recommended aids, such as laptops, coloured overlays, visual timetables, larger font, etc.
- Differentiating our teaching, for example, giving longer processing times, pre-teaching of key vocabulary, reading instructions aloud, etc.

5.8 Additional support for learning

We have teaching assistants in each class, some of whom who are trained to deliver interventions such as those listed in section 5.6.

Teaching assistants may support pupils on a 1:1 basis when they have an Education, Health and Care Plan (EHCP) which states this is a requirement to meet outcomes on their plan or their needs require 1:1 support (this would be part of building evidence for a statutory assessment or to support a pupil whose behaviour is unsafe without this support).

Teaching assistants will support pupils in small groups when directed by the class teacher, to support in class or outside of the classroom on specific interventions.

We work with the following agencies to provide support for pupils with SEN: Educational Psychologists, Physical Impairment and Medical Support (PIMSS), Hearing & Visual Impairment Advisory Teachers, Physiotherapists, Autism and Communication Advisory Teachers, Occupational Therapists, Child and Adolescent Mental Health Service (CAMHS), Learning Support Service Advisory Teachers, Parent and Family Support Advisor (PFSA) and Speech and Language Therapists.

5.9 Expertise and training of staff

Our SENCO has 10 years of experience in this role and has worked as a teacher and a senior leader in a range of schools for 12 years. She is allocated 1 day a week to manage SEN provision.

Mrs Jane Newbury is our inclusion manager, who runs our nurture provision alongside Mrs Rachel Tidball, our learning mentor. We have a team of 12 teaching assistants who support individual children and class teachers across the school.

Different members of staff have received various training related to SEN. Training is often completed and set up according to the needs within school and will cover the main barriers to learning in the four areas of need described in the Code of Practice (2014). We have teaching assistants trained in delivering Individual Literacy Intervention (ILI) and other programmes.

Within the last two academic years, staff have attended training on:

- Attachment (delivered by the educational psychology service)
- Trauma (as part of our Trauma Informed Schools accreditation)
- Sensory Processing difficulties
- Autism in the classroom
- Specific medical care

5.10 Securing equipment and facilities

The type of support, equipment and facilities needed to support children with SEN is led by the child's individual need. Children with an 'Education, Health Care Plan' will have an amount of time to be given as a minimum, to ensure that they are able to meet their targets. Their EHCP clearly lays out the type of support needed as a recommendation.

- Equipment is provided on an individual basis
- Specialist equipment and resources may be loaned by specialist services such as Occupational Therapy or Inclusive Learning Services.
- A range of coloured overlays, visual timetables, pencil grips, adapted scissors and rulers are available when required or advised by specialist services.

5.11 Evaluating the effectiveness of SEN provision

We evaluate the effectiveness of provision for pupils with SEN by:

- Reviewing pupils' individual progress towards their goals (recorded on their Pupil Passports) each term
- Reviewing the impact of interventions regularly
- Reviewing progress through termly data gathering and a range of formal and informal assessments
- Monitoring by the SENCO
- Holding annual reviews for pupils with statements of SEN or EHC plans
- Talking to children and hearing their voices, views and opinions

Other methods of our evaluation include:

- Book scrutiny
- Provision mapping
- SENCO/SLT/Governor monitoring
- Learning walks
- Performance management targets

5.12 Enabling pupils with SEN to engage in activities available to those in the school who do not have SEN

We aim for all children to be included on school day trips and residential stays. We will provide the necessary adaptations, having consulted with you, to ensure that this is successful.

A risk assessment is carried out prior to any off-site activity to ensure everyone's health & safety will not be compromised. In the unlikely event that it is considered unsafe for a child to take part in an activity, then alternative activities will be provided in school.

The school has been adapted for wheelchair access, with ramps outside and a wheelchair lift in the main building. We have a disabled toilet. Our accessibility plan can be found on the school website.

5.13 Support for improving emotional and social development

Here at St Benedict's we recognise that a child's wellbeing and their emotional and social development are key to them being able to learn. The class teachers monitor the well-being of every child in their class. They plan Personal, Social and Health Education (PSHE) or Circle Time activities, giving the children opportunities to develop their social and emotional well-being. Children are encouraged to respect and take care of each other both in the classroom and in the playground. We offer a daily selection of extra-curricular activities aimed at providing children with a breadth of experience. Termly, children in upper school take part in Edukit surveys designed to measure their wellbeing and identify any areas of concern. We use these to identify children who may benefit from additional pastoral support.

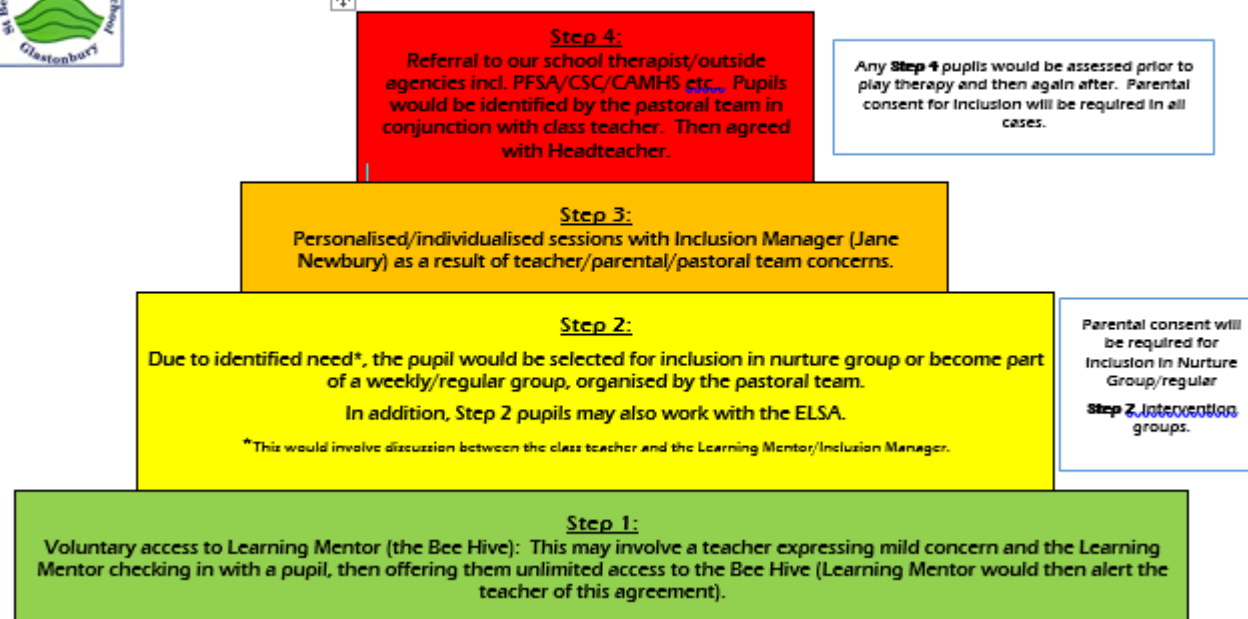

We are incredibly lucky to have two dedicated wellbeing areas within our school. Our 'Beehive' is our nurture support room, providing a space for children who may be overwhelmed or unable to access classroom learning for any reason. It is from this space that Mrs Tidball, our learning mentor, runs Nurture Group provision for our lower school children. Mrs Tidball also runs an 'outdoor learning group' for children with an identified need to further develop their social and emotional skills. Mrs Tidball and our Inclusion manager, Mrs Newbury, may also offer mentoring and 1:1 support sessions for children as appropriate.

We have also recently opened our 'Burrow'. This space was developed to provide an indoor/outdoor space designed to support children who have additional pastoral needs. Our art therapist student works from this space, as do other professionals who may be supporting individual children at school.

Children who are identified as having difficulties with their social, emotional and mental wellbeing will be offered support as appropriate from our triangle of provision (below). Any referrals to therapy or art counselling will take place in conjunction with discussion with parents and class teachers.

St. Benedict's Pastoral Pyramid

We take a zero-tolerance approach to bullying. Through assemblies, PSHE sessions or Circle Time, and daily interaction with the children, we aim to promote an ethos of kindness and teamwork. Restorative Justice is often used. There is a team of Peer Supporters in the playground who are very effective in listening to children and settling some issues.

If a child or parent thinks that bullying is taking place, the first person to contact is the child's teacher. They will try to resolve the issue, and can count on the support of the Inclusion Manager Mrs Newbury, the Headteacher and Deputy Head. Please refer to the school's [Anti-Bullying Policy](#).

5.14 Working with other agencies

Your child may have a specific need which requires us to consult a specialist service. We work closely with any external agencies that we feel are relevant to individual children's needs within our school.

These may include: Educational Psychologists, Physical Impairment and Medical Support (PIMSS), Hearing & Visual Impairment Advisory Teachers, Physiotherapists, Autism and Communication Advisory Teachers, Occupational Therapists, Child and Adolescent Mental Health Service (CAMHS), Learning Support Service Advisory Teachers, Parent and Family Support Advisor (PFSA) and Speech and Language Therapists.

Our Parent and Family Support Advisor (PFSA) is Amanda Thorpe. She supports 7 schools locally and works from St Benedict's 1 day a week (Thursdays).

We work collaboratively with The Mendip School and the Tor School who offer outreach provision and staff training.

We also work with a range of other services including Family Intervention services and Children's Social Care including the Children's Disability Service and Social Workers.

5.15 Complaints about SEN provision

Complaints about SEN provision in our school should be made to the class teacher in the first instance. They will then be referred to the school's complaints policy (found on website).

The parents of pupils with disabilities have the right to make disability discrimination claims to the first-tier SEND tribunal if they believe that our school has discriminated against their children. They can make a claim about alleged discrimination regarding:

- Exclusions
- Provision of education and associated services
- Making reasonable adjustments, including the provision of auxiliary aids and services

5.16 Contact details of support services for parents of pupils with SEN

[Somerset Parent Carer Forum](#) is an independent group of parent carers who have joined together to share information, their views and experiences of children's/young person's services (0-25 years) they already use or would like to use in the future. Phone: 01458- 259384

[Somerset SENDIAS](#) is a free service providing impartial information, advice and guidance to all parents and carers of children with SEND. Phone: 01823 355578 email: info@somersetSEND.org.uk

5.17 Contact details for raising concerns

The first point of contact would be your child's class teacher to share your concerns. You could also arrange to meet with the SENCO, Ms Amelia Kirby. Please speak to the office about making an appointment with her

5.18 The local authority local offer

www.somersetchoices.org.uk is the local Somerset offer.

6. Monitoring arrangements

This policy and information report will be reviewed by the SENDCo **every year**. It will also be updated if any changes to the information are made during the year. It will be approved by the governing board.

7. Links with other policies and documents

This policy links to our policies on:

- Accessibility plan
- Behaviour policy
- Anti-bullying policy
- Complaints procedure
- Supporting pupils with medical conditions

SENCo	Special Educational Needs Co-ordinator
SpLD	Specific Learning Difficulty
TAC	Team Around the Child
VI	Visual Impairment

St Benedict's graduated response relies on our APDR process of assessing children's needs, planning to meet them, implementing support and reviewing on a regular basis. These cycles inform us whether our graduated response is meeting the needs of these children, and if not, how to progress further. APDR cycles are tracked through our Pupil Passports, and regular meetings with parents or carers.

These cycles are implemented with reference to the [*EFFECTIVE SUPPORT FOR CHILDREN AND YOUNG PEOPLE WITH SPECIAL EDUCATIONAL NEEDS AND DISABILITIES \(SEND\) AND THEIR FAMILIES IN SOMERSET*](#) document.

ASSESS:

Identifying a child/young person as needing SEND support, drawing on assessments and the individual development in comparison to their peers.

PLAN:

Appropriate support and intervention provided to meet the identified outcomes for the child/young person.

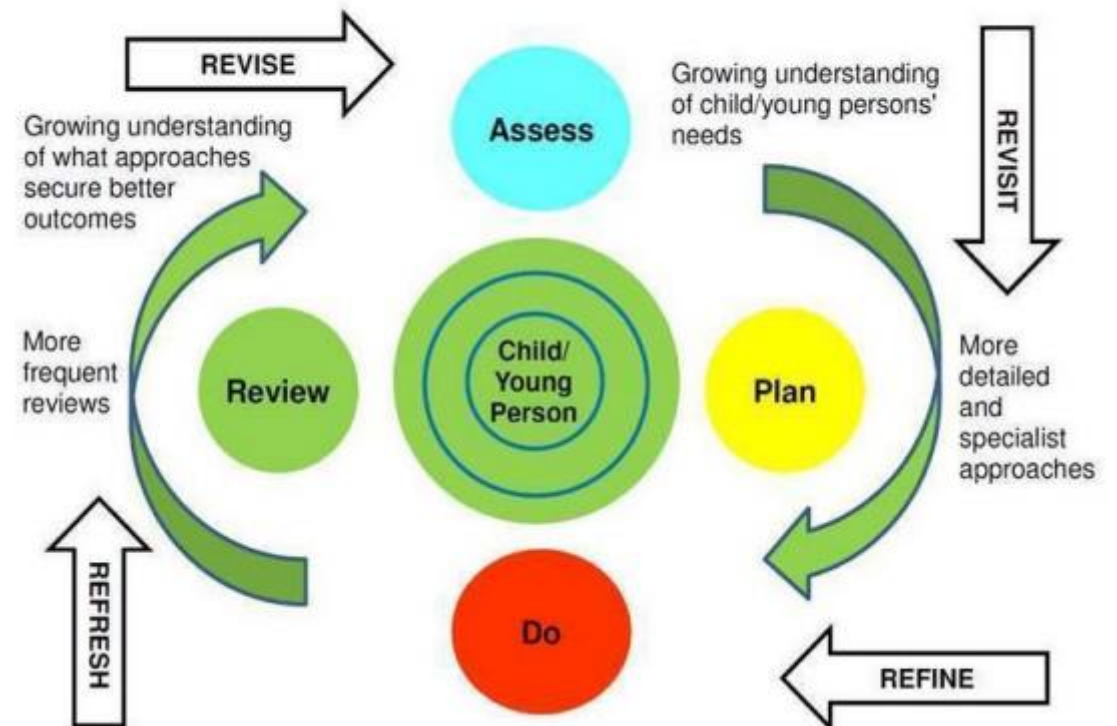

DO:

Multi-agency practitioners are responsible for implementing the agreed plan.

REVIEW:

Regular review of the effectiveness of support and interventions and their impact on the child/young person's progress.

THE FOUR-PART CYCLE

EHCPs

Few Children

Children who fail to make progress on SEN support, or who have complex and acute needs that need multi-agency support, may have EHCPs. EHCPs are legal documents and we have an obligation to meet the provision in them. These children may have additional adult support in class, and specialized and personalised planning and timetables, in addition to the provision below. The class teacher and key adults will need to be aware of the outcomes in the EHCP and support the child in meeting them. Reviews will be annual (in addition to their Pupil Passports). Families are involved in target-setting and decision-making, incorporating the child's voice where possible. Formal transition planning is needed for when these children move sector.

SEN Support

Some Children

All of the below still applies. However, some children need provision which is **additional to and different from** the universal approach. These children will have Pupil Passports which are updated and shared with parents every term. These will include specific targets relating to their SEN and additional assessment / information gathered by key staff to inform next steps. These children may need and have access to: nurture groups, 1:1 with ELSA or our inclusion manager, maths or literacy interventions, input from external agencies (speech and language, occupational therapy, autism and communication services, educational psychology). They may have access arrangements for assessments (doing a different year group's assessments, additional time, doing their assessment externally) or use technology (Clicker, typing) for written work. They may need: wobble cushions, fidget toys, pencil grips, writing slopes or access to a safe space like the Beehive. They may receive counselling, play therapy or art therapy.

Universal

All Children

Quality First Teaching. Every teacher is a teacher of every child and young person and is responsible for appropriate differentiation through high quality, quality first teaching. A language and opportunity-rich environment. High aspirations and expectations for all children and young people are realistic and are set in partnership with children, young people and their parents / carers. Data monitoring happening 3 x yearly with regular feedback to parents. Reasonable adjustments are made to enable the curriculum to engage ALL children and young people. ClassDojo is used to communicate with parents and share successes.

<ul style="list-style-type: none"> • Quality First Teaching inc differentiation/dyslexia friendly/ SLCN framework etc • Consistency of approach from all staff i.e. empathic adult responses • Whole school training in: • Attachment and social emotional development • Support with coming into school (minibus collection) • Team Teach/de-escalation • Ethos of respect towards pupils • Positive role models of all staff • Positive relationships with parents • Whole school/class SEAL/PSHE and Circle Time • Peer mediation • Restorative approaches • Playground buddies/leaders • Friendship stop at play times • Outdoor classroom (Conservation Area) • School Trips • Breakfast and after school clubs • Sharing assemblies • Shared understanding of role of rewards and sanctions • Class Timetables • Visual timetables • Opportunities for play as a provision/need • School Council (Pupil Voice) 	<ul style="list-style-type: none"> • Enhanced TA support/listening time • Nurture Group • Social skills group • Small Group Forest School/outdoor activities and trips • Pupil Passport • Wobble cushions/fiddle objects • Special place to sit in class (security/safety) • Buddy: listening time • Calm Box -calming activities and relaxation 	<ul style="list-style-type: none"> • Key adult for most/all of the day • Individual/personalised learning programme- looking at child's interests • Circle of Friends Alternative/enhanced arrangements at play and lunch times • Increased communication between staff and outside agencies (EPS, SEBSS, CAHMs PFSA etc) • Emotional barometer- supporting self-regulation, eg Feelings Fan • Safe Place i.e. pop up tent to calm • Time Out-positive and with support • SEMH Assessment of need: Boxall, NFER Emotional Literacy Assessment and Intervention, BVPT, • Positive Handling Plans • Behaviour Plans • Individual timetable if needed-prepare for changes • Pastoral Support Programme • Reduced Timetable • Social stories • Specialist therapeutic support: • Counselling • Art-therapy • Star Chart with short-term targets eg lesson-by-lesson • Home-School book

St. Benedict's Pastoral Pyramid

Step 4:

Referral to our art therapy/outside agencies incl. PFSA/CSC/CAMHS etc.. Pupils would be identified by the pastoral team in conjunction with class teacher. Then agreed with Headteacher.

Any **Step 4** pupils would be assessed prior to play therapy and then again after. Parental consent for inclusion will be required in all cases.

Step 3:

Personalised/individualised sessions with Inclusion Manager (Jane Newbury) as a result of teacher/parental/pastoral team concerns.

Step 2:

Due to identified need*, the pupil would be selected for inclusion in nurture group or become part of a weekly/regular group, organised by the pastoral team.

In addition, Step 2 pupils may also work with the ELSA.

*This would involve discussion between the class teacher and the Learning Mentor/Inclusion Manager.

Parental consent will be required for inclusion in Nurture Group/regular **Step 2** intervention groups.

Step 1:

Voluntary access to Learning Mentor (the Bee Hive): This may involve a teacher expressing mild concern and the Learning Mentor checking in with a pupil, then offering them unlimited access to the Bee Hive (Learning Mentor would then alert the teacher of this agreement).

Base Level: (No additional support required).

All pupils at St. Benedict's begin at Base Level and access each level as required.
